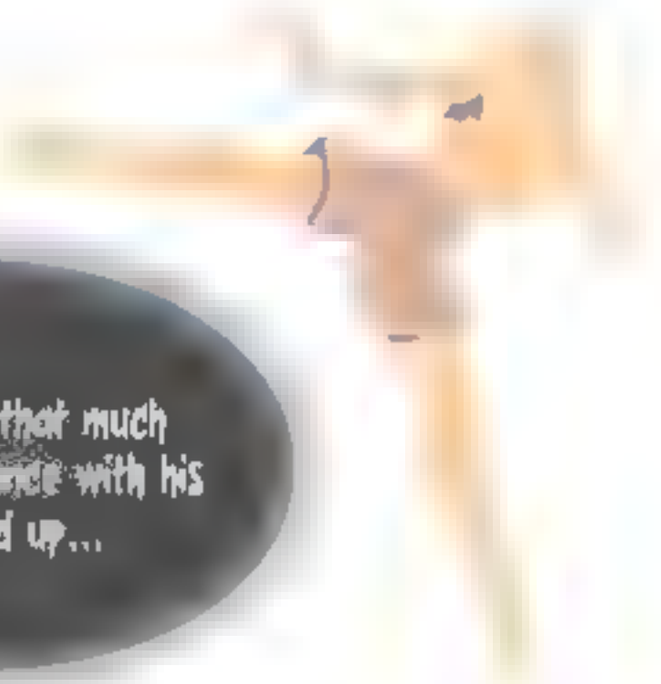
Mori got his ribs fractured.
If you only look at the damage, Mori is losing. Look at Mansuk's physique...
He didn't even flinch at two blows from behind!
And what's more—

When kicking, you use your arms for balance and speed.



But to have that much speed and balance with his arms tied up...

If he took off his straitjacket...

He would be many times faster and stronger.

WHAT'S YOUR NAME?

I'LL TELL YOU AFTER I BEAT YOU UP.

ANTI '11

Rhea is a street fighter. She has weights on her arms, which reduce her speed, but add quite a bit strength to her punches. , the chains can be removed depending of the opponent. (Her name is from the Greek Mythology. Rhea is a Titaness, a daughter of Uranus and Gaia , named as "mother of the gods". Rhea and Cronus took the throne as King and Queen of the Gods. This time was called the Golden Age)
